

My name is Janice Ouellette, and I am running for a three-year term on the Danville Selectboard. I have had the pleasure of serving on the board this past year and would love to continue to work for the residents of my home town. Some of the projects I have been involved in this past year are bringing the Apparel Impact textile recovery bin to the recycling center, working with the school to establish a garden to supply fresh vegetables to the Senior Meal Site and Open Door Food Shelf, and a new town personnel policy that combined the existing policy with the highway department work manual. Currently I am working with the board to identify grant opportunities to combine with the town ARPA monies with a goal of funding planned for capital projects.

Other activities I enjoy are long walks with my husband Dan and our rescue dog Auggie, big family dinners, spending time with my grandchildren, gardening, the daily Wordle puzzle, and volunteering at the Open Door.

I am fully retired and have the time, energy, and desire to continue to serve you as a member of the Danville Selectboard. I hope I can count on your support. Thank you.
